

Free Banking—New Constitution.
The most important subject, connected with that of Constitutional Reform, is that of BANKING. We say that this subject is the most important, because those who control the money, control all industrial and commercial pursuits. They fix the price of labor, produce, and all other commodities, and by direct and indirect means regulate political affairs. How can a system of banking be adopted in Ohio that will be free from the evils and disasters, that have attended all previous systems? The true course seems to us plain enough. Open the business of banking to free competition, and compel those who issue their promissory notes, to deposit security with the state dollar for dollar, in the stock of the state of Ohio. You will thus secure the certain payment and the redemption of the notes issued, and by destroying monopoly, and insecurity, remove most, if not all, of the objects to paper money. At all events, every man can see, and will admit, such a system is vastly superior to any other, and the only one that is even tolerable.—*Toledo Republican*

BURGLARY AND BAD SHOOTING.—We learn from the *Guernsey* (O. Jeffersonian), that a store in that county being robbed, and the goods having been discovered hidden in a wood, a guard well armed was placed near to keep watch, in expectation that the thief would come and remove them. In the early part of the succeeding night a person came to remove them. He was fired upon in an attempt to flee; he escaped unhurt, but one of the shots took effect in the back of one of the possessors, Dr. Campbell, and dangerously wounded him. Strong hopes are entertained of his recovery though the chances are doubtful.

WHEAT ECONOMY IN OHIO runs somewhat after this fashion—Increasing the salaries of State officers over SIXTEEN THOUSAND dollars, and squandering MILLIONS of dollars annually.

All who are in favor of this system of economy (!) will vote the whig ticket. All who are opposed to it, should vote the Democratic ticket.—*Guernsey Co. Jeffersonian*

From Canada.
The following from the *Montreal Herald* shows that the slaves are beginning to fall from the eyes of the people of Canada: We believe that the idea of the Governor General being the protector of British interests, or of any interests, has become a delusion and a snare. We believe that his office is at present a sham, cheating the people of the Province out of one branch of that tripartite constitution, which 32 States, composed of the people of all the world, best constituted with constitutional government have adopted.

We believe it is something even worse than a sham; for it possesses just sufficient appearance of reality to induce expectations which cannot be realized, and will thus be the constant cause of turmoil and confusion. It is time that liberalism ceased to blow hot and cold. It is time that the people of Canada possessed institutions, which will not "keep the word of promise to the ear; but break it to the hope."

WISCONSIN.—The Free Soil Convention in this State, met on the 7th, and nominated Nelson Dewey for Governor, the Democratic nominee, and the rest of their own men. Benjamin Hawkins, of Waukesha, was nominated for Secretary of State, but sent the following telegram, in communication to the convention:—

"Benjamin Hawkins declines the nomination for Secretary of State, and will support the regular Democratic ticket."

The Democracy of Wisconsin, we are certain will achieve a perfect victory over all their foes.—*Plain Dealer*

SINGULAR SENTIMENTS.—The American Consul at Paris, Robert Walsh, Esq., in a letter published in the *Journal of Commerce*, expresses the following, which are certainly strange, coming as they do from a high American functionary. He says "that the repression of anarchy, the restoration and rescue of political order—the safety of civilization itself—may yet be the work of Russia." Disturbance is banished from every mind, by the character, the declarations, and the very obvious interests of Czar Nicholas." The order enforced by armies, and Cosack civilization, must sound strangely in this country.—*Cincinnati Commercial*

The "singular sentiments" of Mr. Consul Walsh, noticed in the above, is but the carrying out of the "sentiments" of the Whig organ in this city, which, not long since, made open boast that it had no confidence in the people. Consul Walsh entertains the same sentiments, and he illustrates them in a manner which he supposes, and perhaps correctly, will make him friends with the present Administration. Before he went to France, Mr. Walsh was a leading Whig editor. It seems that he still retains the sentiments of the leading men of that party, and of whom our Sugar Lake neighbors are humble copyists.—*Statesman*

THE FRENCH DIFFICULTY.
WASHINGTON, Sept. 26
The latest accounts from Washington state that the French Minister M. Poussin, through the interposition of Mr. Crampton, the English charge, had submitted a conciliatory proposition to our Government. President Taylor had refused to permit M. Poussin to resume his official intercourse until further advice had been received from France.

Fire in Owego.
New York, Sept. 23.
The New York Tribune has the following in relation to a fire in Owego New York, on the 27th ult. Our village is in ruins. The fire occurred this morning at 4 o'clock, in the second story of Worley's Brick Block, occupied by the Order of Sons of Temperance—and raged till this hour, 10 A. M. The loss is immense—variously estimated from \$500,000, to \$1,000,000, including two Hotels, the building owned by the Bank of Owego, the Post Office, the Telegraph Office, the bridge across the Susquehanna, and some 100 buildings, nearly the whole of the business portion of the village. By great exertions, the Owego Academy, Clerk's Office, Canal House and Baptist Church were saved.

Taxation in Ireland.
The following extract from a letter of an Irish farmer to Lord John Russell, shows the oppressive system of taxation which the Irish farmer has to bear. This letter is from Wm. Leader, of Ransalee, county of Cork. Mr. L. is a landlord in fee, cultivating, with the aid of an experienced Scotch farmer, 240 arable Irish acres, exclusive of 40 acres of young wood. The ground is in the best condition, but the poor rates eat up all the profits. He says:—

"I have not derived one shilling of income from it for the last year, all being swallowed up in the following rates and taxes: Two country rates, £39 15 10 Poor rates, made 27th Nov., 1847, at 3s., 51 0 9 Poor rates, made 18th March, 1848, at 2s. 6d., 42 17 6 Quot. rate, 2 15 9 Road rate of 2d. pr lb, 6 0 0 Tithes, £250 10 6"

In all, £250 10 6 Or, £1 0s 10d. an acre. "In the above calculation, I have not included £45 poor rate paid for a bolting mill on this land—a species of property free trade has rendered all but valueless; and, if added, it would raise the rates to £1 5s. 5d. an acre. Owing to the failure of the wheat crop, and the low prices of cattle, and every other agricultural commodity, I did not make this rent off my land and I am now at a positive loss. Thus, my lord, you may perceive that it does not require an encumbered estate to ruin its owner in Ireland. A fee simple unencumbered, well cultivated one, as mine, without a pauper on it, can, under the present laws, effectually do it."

We have published more evidence of the value of Vaughan's Great American Remedy, the vegetable Lithontriptic Mixture, in our columns the past 6 months than we have ever published in as many years of any other preparation. It will stand higher, and perhaps does at the present moment, than any advertised or unadvertised medicine in the whole catalogue of nostrums. The article is a cure for everything; to prove it, look over our columns and see evidence of the cure of Dropsy, Rheumatism, Gravel, Scrofula, and fifty other and various complaints, and from people of truth, too, names, dates &c. given.—Read the pamphlet in the Agents' hands. The advertisement is in our columns under the "Great American Remedy."

THE GOLDEN REGIONS.
Everybody is talking about the Golden Region, and many in Northern Wisconsin are preparing to go. We would advise those who go by land to purchase half a dozen boxes of Sloan's Horse Ointment, and a lot of his Family Ointment. We have several instances in this vicinity where this medicine has effected miraculous cures; and we therefore advise all who take the overland route to be well provided with this article. There is no humbug about it.—*Wisconsin Republican*
